## \* Freescale Display Interface Unit

The Freescale DIU is a LCD controller, with proper hardware, it can also drive DVI monitors.

Required properties:

- compatible : should be "fsl-diu".
- reg : should contain at least address and length of the DIU register set.
- Interrupts : one DIU interrupt should be describe here.

Example (MPC8610HPCD):

```
display@2c000 {
    compatible = "fsl,diu";
    reg = <0x2c000 100>;
    interrupts = <72 2>;
    interrupt-parent = <&mpic>;
};
```
