

irda.txt

To use the IrDA protocols within Linux you will need to get a suitable copy of the IrDA Utilities. More detailed information about these and associated programs can be found on <http://irda.sourceforge.net/>

For more information about how to use the IrDA protocol stack, see the Linux Infrared HOWTO by Werner Heuser <wehe@tuxmobil.org>:
<<http://www.tuxmobil.org/Infrared-HOWTO/Infrared-HOWTO.html>>

There is an active mailing list for discussing Linux-IrDA matters called irda-users@lists.sourceforge.net
