

cd32.txt

I have written a small patch that let's me use my Amiga CD32 joystick connected to the parallel port. Thought I'd share it with you so you can add it to the list of supported joysticks (hopefully someone will find it useful).

It needs the following wiring:

CD32 pad	Parallel port
1 (Up)	2 (D0)
2 (Down)	3 (D1)
3 (Left)	4 (D2)
4 (Right)	5 (D3)
5 (Fire3)	14 (AUTOFD)
6 (Fire1)	17 (SELIN)
7 (+5V)	1 (STROBE)
8 (Gnd)	18 (Gnd)
9 (Fire2)	7 (D5)
