The FAQ for isdn4linux

Please note that there is a big FAQ available in the isdn4k-utils.

You find it in:

isdn4k-utils/FAQ/i4lfaq.sgml

In case you just want to see the FAQ online, or download the newest version, you can have a look at my website:

<http://www.mhessler.de/i4lfaq/> (view + download)

or:

<http://www.isdn4linux.de/faq/> (view)

As the extension tells, the FAQ is in SGML format, and you can convert it into text/html/... format by using the sgml2txt/sgml2html/... tools.

Alternatively, you can also do a 'configure; make all' in the FAQ directory.

Please have a look at the FAQ before posting anything in the Mailinglist, or the newsgroup!
