sysfs-devices-node..txt

What: /sys/devices/system/node/nodeX/compact
Date: February 2010
Contact: Mel Gorman <mel@csn.ul.ie>
Description:

                When this file is written to, all memory within that node
                will be compacted. When it completes, memory will be freed
                into blocks which have as many contiguous pages as possible
